Suffield Academy has developed a strong partnership with Adventure In Adventure Out (AIAO) during the past two academic years. AIAO has worked extensively with our school in helping facilitate our orientation program, which reinforces our school's values and themes. The strength of our relationship is based on AIAO's professionalism and attention to detail. They bring a high-energy program, which is consistent with the goals of the orientation weekend. Communication between AIAO and Suffield Academy has been remarkable as extensive discussions prior to the event ensure a positive outcome. The staff is friendly, engaging and committed to the complete student experience. They have the ability to create a comfortable positive atmosphere for all students. AIAO solicits feedback and is open to all discussions to improve future programs. We value our relationship AIAO and look forward to working with them in the future.

Sincerely,
